

## EQUIPMENT

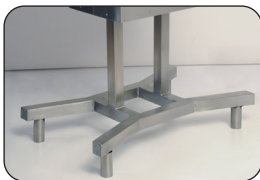

# MEAT GRINDER PG-32-5

The PG-32-5 Meat Grinder is a heavy duty industrial grinder that will handle the demands of a high volume processing plant, supermarket, or factory. It incorporates a larger feed chute that maximizes production to over 1524.24 Kg/hr. Equipped with a 5 HP motor, this unit is even more powerful & efficient than the PG-32, only 5 Kg heavier. With a fully stainless body, this model is easy to use, clean, & disassemble. Powerline Grinders are specifically designed for long life, and this one for exceptionally high output capacity.

### STANDARD FEATURES

- Equipped with a super powerful 5 HP motor
- Stainless steel construction
- Safety guard
- Thermomagnetic contactor prevents motor from overload
- Head deflector prevents splatter from air pockets
- Steel gear transmission
- Oil layered/bathed steel to eliminate corrossions/friction
- Knife, 3/16" plate & stomper included
- High capacity head increases efficiency through holding the bigger pieces into the system
- Adjustable legs & deep pan
- Easily disassembled & cleaned
- No belts or pulleys
- Cast iron grinding system reinforced with tin plating

The PG-32-5 is equipped with an integral stand constructed of stainless steel. This stand allows flexibility in regards to a multitude of requirements used in determining your work area.

With a stainless steel cabinet + tray, this unit is both visually and hygienically appealing. An added bonus to this fine unit is that it is easily cleaned without tools. In addition, the head guard eliminates most cleaning due to splatter in the first place!

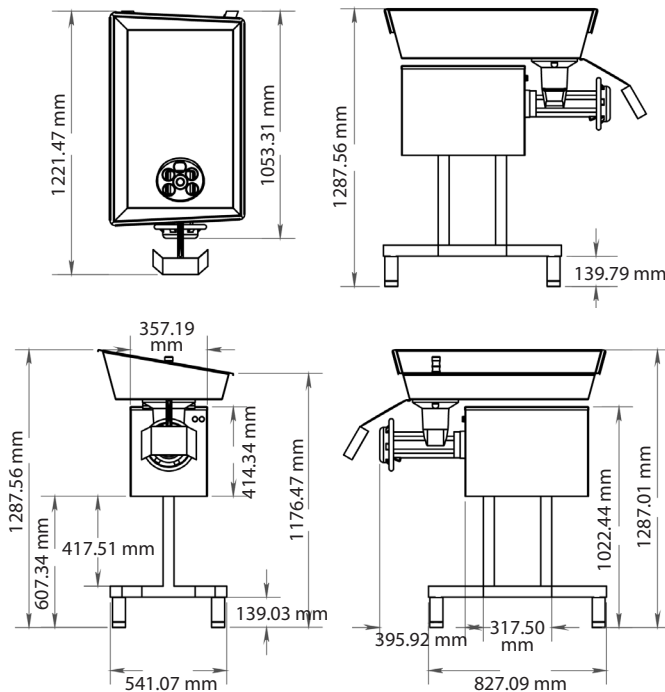

Despite the 29 Kg/min grinding capacity and large size of this industrial unit, its body can be completely disassembled, meeting any of your needs: cleaning, repair, etc.
